

Designer Showcase Submission Guidelines

Dec. 19, 2011

Water feature designers and installers:

Water Garden News welcomes submissions for the Designer Showcase section year-round. Simply email a before and an after picture with a summary about your pond or water feature project to schebat@bowtieinc.com. Eligible projects should be recent and may include traditional koi ponds, traditional water gardens, hybrid features, waterfalls, streams, fountains, rainwater harvesting systems and pondless features.

Those who send in a complete submission are entered into a quarterly raffle to win an iPad 2 or similar tablet valued at \$650.

Projects published in Water Garden News magazine receive a certificate of recognition and \$250 worth of products from the sponsor: Cobalt International. Projects selected as online exclusive Designer Showcase features are posted online at WaterGardenNews.com and receive a certificate of recognition.

We look at the Designer Showcase as a means of inspiration for our readers. As such, we seek to offer well-executed plans as examples of the breadth of creativity and the endless possibilities this field affords. Submissions are featured solely at the editor's discretion.
