

Waterfall Construction Seminar Scheduled for May 22

Monday, May 17, 2010, 4:10 p.m. EDT

Exotic Waterscapes hosts free pond construction seminars each year to teach do-it-yourself and contractors how to build ponds, rock-column fountains and disappearing waterfalls. [Courtesy of Kathleen Buckner/BowTie Inc.] Exotic Waterscapes plans to host a seminar on how to build a waterfall at its headquarters in Yucaipa, Calif., on May 22. The free waterfall construction event is open to the public.

Attendees will work side by side with Exotic Waterscapes and The Pond Digger Waterscape Design & Construction Team. The waterfall construction seminar is geared to teach attendees how to install a low-maintenance disappearing waterfall using Flowranger construction equipment, how to build a waterfall and how to install an energy-efficient pond pump. The waterfall construction seminar also will cover underwater lighting and how low-maintenance aquatic plants can enhance visual appeal, among other topics.

Exotic Waterscapes hosts free pond construction seminars each year to teach do-it-yourself and contractors how to build ponds, rock-column fountains and disappearing waterfalls. To RSVP for the event and for additional information, visit www.exoticwaterscapes.com.
