

## Savio Creates Contractor Rewards Program

Thursday, August 12, 2010, 5 p.m. EDT

Savio has created a rewards program to recognize the network of Savio certified contractors who support the company by purchasing and using Savio's line of water feature installation products and components. The Savio Certified Contractor Rewards Program is available to qualified international and domestic water feature contractors who successfully entered into the Savio Certified Contractor Program. The contractors must be active members in good standing.

All eligible contractors receive credit for each Savio product they purchase and install. Products purchased for resale are not eligible, according to Savio.

These credits are then accumulated, tallied and recorded for each contractor. Contractors can then take the credits and "cash" them in for various gifts, prizes and products.

Savio noted that the rewards program is free and does not have any expirations or deadlines.
